**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

At line 1 of [0010], change "can comprises" to --can comprise--.

***Allowable Subject Matter***

2. Claims 1-20 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose applicant's invention pertaining to detecting moisture penetration into an integrated circuit chip, characterized by a low-k dielectric material, a moisture barrier/edge seal on the integrated circuit chip in proximity to the moisture barrier/edge seal, and a moisture sensor positioned on the integrated circuit chip, exemplified by a chain of vias surrounding the chip periphery wherein electrical measurements of the chain of vias are used to detect moisture penetration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The IEEE article to Lumsden et al. is relevant to applicant's claimed invention because the article teaches an in situ electrical measurement for detecting moisture penetration into an IC chip. However, the sensor circuit is external to the IC and there is no mentioning of a low-k barrier/edge seal.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan Pert whose telephone number is 571-272-1969. The examiner can normally be reached on M-F (7:30AM-3:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor Michael Tokar can be reached on 571-272-1812. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
